# Almond Joy “Cheesecake”

Prep Time: 10 Min

\*Cook Time\*: 30 Mins

Serves: 1

This quick and easy, high protein snack tastes just like Almond Joy Cheesecake, but it's packed with protein and is super healthy!

## Ingredients

- ½ Cup Low Fat Cottage Cheese
- ½ Scoop Chocolate Protein Powder (about 3 Tbsp) \*
- ¼ tsp Stevia (or sweetener of choice, to taste)
- 2 Tbsp Natural almond butter \*\*
- 1 Tbsp Unsweetened coconut flakes

## Directions

1. In a small food processor, blend the cottage cheese, protein powder, sweetener and 1 Tbsp of almond butter. I always layer them in that specific order, as I find it blends the best that way.
2. Process until well mixed and the cottage cheese is creamy and smooth. Note that the mixture is very thick, so you will have to stop the food processor and scrape down the sides a few times, and then keep blending until smooth.
3. Transfer the mixture into a small bowl and place into the freezer for 30 minutes - 1 hour to let it set up a little \*\*\*.
4. While it chills, spread the coconut flakes onto a small baking sheet and toast them in a 400 degree oven until light golden brown, about 1 -2 mins.
5. Once the cheesecake has set, top with additional 1 Tbsp of almond butter (if using) and toasted coconut flakes and DEVOUR.

**NOTES:** \* I prefer to use casein protein powder over whey, as it is thicker, but whey will be just as yummy!

\*\* You can use only 1 Tbsp if you want to make this even lighter, but it's much better with 2!

\*\*\* You can also eat it immediately, I just think the texture is closer to cheesecake once it chills and firms up.

# Peanut Butter and Jelly Quinoa Egg Muffins

Prep Time: 10 Min

Cook Time: 35 Mins

Yield: 8 Muffins

This egg muffin recipe tastes like a peanut butter and jelly sandwich and is quick, easy, healthy and portable! They're great for kids and adults!

## Ingredients

- 1 - 1¼ Cup Strawberries, diced \*
- ¾ Cup Unsweetened Vanilla Almond Milk
- Pinch of salt
- ½ Cup Quinoa, uncooked
- ¼ Cup Natural Peanut Butter, + more for garnish
- 3-4 Tbsp Honey, divided \*
- 4 Egg Whites
- 1 Egg
- ¼ Cup Roasted Peanuts, Finely chopped \*\*

## Directions

1. Preheat your oven to 450, line a baking sheet with parchment paper and generously (very key!) spray a muffin tin with cooking spray.
2. Toss your strawberries with ½ Tbsp of the honey and spread onto the parchment lined baking sheet and place into the oven for 10 minutes, until the strawberries release their juices. Once cooked, spoon them into a strainer to strain out any excess juices. Set aside.
3. In a large pot, bring the almond milk and a pinch of salt to a boil. Stir the quinoa into the boiling milk. Cover the pot and cook on low heat until most of the milk is absorbed, about 20-25 minutes.
4. Place the peanut butter into a large bowl and microwave for 1 minute, until it melts. Stir in the honey and the cooked quinoa until well mixed.
5. In a separate small bowl, whisk together the egg whites and egg yolk and pour into the quinoa mixture, stirring until the quinoa begins to absorb the egg. Your mixture will be a little bit soupy.
6. Fill 8 of the muffin tins ½ of the way full and then divide the cooked strawberries evenly between them, gently stirring around to evenly distribute them. Cover with the remaining quinoa mixture, and sprinkle with the peanuts. Bake until the quinoa appears set and begins to pull away from the sides of the muffin tin, about 20-25 minutes.
7. Let cool in the pan for 10 minutes, + then transfer to a cooling rack to finish cooling. Once cooled, drizzle with additional peanut butter and DEVOUR!

**NOTES:** \*I tried these muffins with both fresh and frozen strawberries. Like expected, the fresh does taste better but frozen works too, with a few tweaks. Here are the changes I would make between fresh and frozen:

If using frozen, thawed berries: Use 1 cup diced and use 3 ½ Tbsp honey in the quinoa and ½ tsp of honey to roast the berries (make sure to get out as much liquid from the thawed berries before roasting) If using fresh berries (the best): Use 1 ¼ Cup berries (as they shrink down more than frozen) and 2 ½-3 ½ Tbsp of honey in the quinoa (I liked 2 ½ Tbsp, Mr. FFF likes 3 ½) and ½ tsp. on the fruit, depending on if you like a very sweet muffin.

This chocolate truffle recipe is quick and easy, and has a surprise ingredient to keep them healthy! It has a yummy banana chip coating, and a peanut butter filling.

## Ingredients

- $\frac{2}{3}$  Cup Avocado, mashed. (About 1 large)

## Directions

1. Blend the avocado in a food processor until it is very smooth.
2. Add in the protein powder, and vanilla extract and blend until well combined.
3. In a medium, microwave safe bowl microwave the chocolate chips for about 1 $\frac{1}{2}$  minutes, stirring every 20 seconds, until the chips are melted.

5. Pour the avocado mixture into a medium bowl, smoothing any lumps out.

3. Place the protein powder into a large, zip-loc bag and then scoop the cereal into the bag. Seal the bag and shake around until the protein powder evenly coats the cereal.

# Chocolate Almond Protein Bars

Prep Time: 15 Min

Cook Time: 35 Mins

Yield 8-12 Bars

These homemade protein bars are made of oats, chocolate and almonds. They're quick, easy and a perfect healthy snack!

## Ingredients

3/4 cup quick oats, plus 2 tablespoons  
1/4 cup brown sugar \*  
3 tablespoons granulated sugar  
3 tablespoons chocolate protein powder  
1/4 teaspoon salt  
1/2 teaspoon cinnamon  
1/2 cup slivered almonds  
1/2 cup milk chocolate chips  
1/2 teaspoon pure vanilla extract  
3 tablespoons almond butter  
3 tablespoons honey  
1 1/2 tablespoons coconut oil  
2 tablespoons unsweetened apple sauce

## Directions

1. Preheat your oven to 350°F and line a small baking dish (mine was 8x6) with parchment paper.
2. In a large bowl, combine the oats, brown sugar, granulated sugar, protein powder, salt, cinnamon, slivered almonds and milk chocolate chips. Toss to mix evenly.
3. In a small bowl, melt the almond butter, honey and coconut oil in the microwave. Stir in the vanilla and apple sauce.
4. Add the almond butter mixture into the oat mixture and mix until well combined. I find using your hands is the easiest.
5. Pour the mixture into the prepared baking dish, really pressing down to make sure the mixture is pressed up all against the sides and compacted as well as possible.
6. Bake until the sides just start to pull away and darken, about 33-35 minutes.\*\*
7. Let cool completely before lifting the parchment out of the pan and slicing.
8. DEVOUR.

**NOTES:** \* You can get away with 1 tbsp less of brown/granulated sugar if you like a less sweet and less "commercial" tasting bar. I preferred it with the recommended amount.

\*\*The bars will be VERY soft and appear undercooked when done. They set up A LOT once cooling. Bars can be stored at room temperature for 4-5 days, and then refrigerated or frozen.

  - Truvia (or sweetener of choice) to taste

## Directions

1. In a medium bowl, stir together the white whole wheat flour, protein powder, baking powder and salt. Set aside.
2. In a small, microwave safe bowl, melt the honey and coconut oil in the microwave (about 30 seconds.)
3. Make a well in the center of the dry ingredients and pour in the honey mixture, Greek yogurt and almond milk. Stir until smooth and well combined.
4. Lightly spray a mug (mine was 12 oz) with cooking spray and pour the batter in. Microwave for 1 minute and 10 seconds, watching the microwave closely to make sure that your cake isn't exploding.
5. Let cool for 1 minute and stir together topping of choice in a small bowl.
6. Top with "frosting" and DEVOUR

**NOTES:** Everyone's microwaves are different, so yours may need less or more time as each microwave can give different results. Mine is 1000 watts and was perfect at 1 minute and 10 seconds. I would suggest trying that and watching it closely while it cooks. Then, if it's still a little wet after 1 minute and 10 seconds, try microwaving it in 10 second intervals until it's done :)

# Vanilla Coconut Lemon Energy Bites

Prep Time: 10 Min

Cook Time: 0 Mins

Yield 8-10 Bites

These energy bites are made from dates, vanilla protein powder, coconut and lemon zest for a quick snack to keep you full and energized throughout your day!

## Ingredients

- 1 Cup Dates, roughly chopped (160g)
- 3 Tbsp Vanilla protein powder
- ¼ Cup + 3 Tbsp Sweetened coconut flakes + additional for rolling
- 1 tsp Lemon zest
- 1 tsp Coconut oil, melted

## Directions

1. Place the chopped dates in a small food processor (mine is sized for 3 cups) and process until broken down into small pieces.
2. Add in the protein powder, coconut flakes and lemon zest. Continue processing until the mixture is well blended and crumbly.
3. With the food processor running, stream in the melted oil until the dough forms a sticky ball. This could take 2-3 minutes depending on the power of your food processor.
4. Roll the mixture into balls and roll in additional coconut flakes, gently pressing to adhere to the bites.
5. Store in the refrigerator until ready to eat.
6. DEVOUR.

**NOTES:** \* I found that putting the coconut flakes in a very small food processor for a few seconds, to break them down a little bit, made them adhere to the outside of the balls easier.
